Library to Present Free Seminars Focusing on Over-the-Counter Medicine *"Be Well Informed" Presentations to be Held at Five Libraries*

SAN DIEGO – The City of San Diego Public Library will host a free seminar in September, October and November focusing on over-the-counter medicines. Titled "Over the Counter and Into the Mouth," the seminar will be held at five City libraries.

American medicine cabinets contain a growing choice of nonprescription, over-the-counter medicines to treat an expanding range of ailments. Over-the-counter medicines often do more than relieve aches, pains and itches. Some can prevent diseases like tooth decay, cure diseases like athlete's foot and, with a doctor's guidance, help manage recurring infections, migraines and minor pain in arthritis.

The free seminars will provide detailed information about nonprescription, over-the-counter from a registered pharmacist. The programs will include presentations and a question and answer period. The seminars are part of the Be Well Informed @ your library campaign, presented by Walgreens and the American Library Association. The San Diego Public Library is one of only 10 library systems in the country participating in the program.

The schedule of seminars is as follows:
